Jimma & Addis Ababa, Ethiopia | +251 964 986 146 | kaleabc12@gmail.com | linkedin.com/in/kaleab-ismael-41a28b352

PROFESSIONAL SUMMARY

Detail-oriented Information Science graduate with a strong foundation in database management, data analytics, and web development. Hands-on experience gained through a data analytics and web development internship at Mizan-Tepi University, and through independently designing and building the PEART system end-to-end. Proficient in Microsoft Office and office administration, with a solid grasp of SQL, MySQL, and modern front-end technologies. Eager to apply analytical and technical skills in a data-focused or web development role.

EDUCATION

B.Sc. in Information Science

Graduated June 2026

Jimma University

INTERNSHIP EXPERIENCE

Data Analytics & Web Development Intern | Mizan-Tepi University for 2 months

- Supported data analytics and web development tasks during a two-month internship, applying academic knowledge in a real-world institutional setting.
- Contributed to data management and reporting activities, working with structured datasets and database tools.
- Gained practical exposure to web development workflows alongside data analysis responsibilities.

PROJECT

PEART System | Independent Project

- Independently designed and developed the PEART system, a full-stack web application built with HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented front-end interfaces and back-end logic, including database design and data handling with MySQL.
- Managed the project end-to-end, from planning and design through development and testing.

SKILLS

- Database Management & Data Analytics — SQL, MySQL
- Web Development — HTML, CSS, JavaScript, React, PHP
- Office & Administration — MS Word, Excel, PowerPoint, Data Entry

LANGUAGES

Amharic — Native | English — Professional
